Jakub Kvita

Education

2013
2016

M.Sc., *Brno University of Technology*, Faculty of Information Technology, Brno.
Computer Graphics and Multimedia course.

2013
2014

M.Sc., *University of South Wales*, Faculty of Computing, Engineering and Science, Cardiff.

Exchange student, Erasmus programme.

2010
2013

B.Sc., *Brno University of Technology*, Faculty of Information Technology, Brno.

Experience

2015/7 – 2015/8

OpenLab Summer Student, *CERN*, Genève.

Internship at *Cloud & Virtualization* team. I explored solutions for archiving Openstack Cinder volumes using Cinder backup feature and existing CERN infrastructure. Using CERN OpenStack cloud, Ceph clusters, TSM tape storage.

2015/2 – 2015/6

Quality Assurance Engineer, *Red Hat*, Brno.

Internship at *REST* team focused on Pulp API testing on Amazon EC2 and Openstack cloud. Using Python and Nostet.

2014
2015

Quality Assurance Engineer, *Red Hat*, Brno.

Internship at *Subscriptions* team focused on testing CDN content and subscriptions of customers. Everyday communication with American and Chinese colleagues.

Courses and Certificates

June 2014 Computer Vision and Intelligent Computer Systems. Intensive course at *University of Burgundy, France*.

May 2013 Cambridge ESOL FCE. *Certificate in english, level C1*.

January 2013 Cisco Certified Network Associate. *Routing and Switching*.

May 2012 Conflicts and Assertivity. *Soft skills course*.

January 2012 Microsoft Certified Technology Specialist: Windows 7, Configuration.

June 2009 Driving License.

Languages

Czech **native**

English **fluent**

Level C1 certificate. Can use language flexibly and effectively.

Russian **pre-intermediate**

Can understand and deal with most common situations.

Slovak **proficient**

Able to communicate at social, academic and professional level.

Skills

Languages	Python, Java, C/C++, Bash, SQL
Software	OpenStack, Ceph, UNIX/Linux, Git, Trac, OpenGL, OpenCV, Matlab
Concepts	machine learning, threading, TCP/IP, network administration and security, rendering, 3D modeling, computer vision, databases, software development

Projects

OpenMP, OpenMPI	Processor Cooler Simulation, 2015 , Brno University of Technology. Parallel simulation of heat diffusion in cooler mounted on processor. Two implementations created - first with OpenMP, second with OpenMPI.
OpenCV	Number Plates Recognition, 2014 , Brno University of Technology. Computer vision tool, which takes picture, detect licence plates, use classifier to recognize letters and then write them in the image.
rendering	Raytracing Chess, 2014 , Brno University of Technology. Renderer of chess models which is customizable with setting positions of all the game pieces, colours, lights, etc.
OpenCV	Video Stabilization, 2014 , Brno University of Technology. Command line tool for stabilizing videos with a lot of options. Two different methods can be used - GrayCoded bitplane matching and KLT tracker with SVD.
C, interpreters	Lua Interpreter, 2011 , Brno University of Technology. Compiler of part of Lua to intermediate code, which was then interpreted. Grammars, parsing and interpreting.

Qualities

Personal skills	Strong analytical and complex thinking, focused on solving the problem and keeping schedule, direct communication, self-reflection - I can admit mistakes and be open-minded.
International Experience	I lived in Cardiff - UK, for half a year at university with many international students, where I studied and shared an apartment with different foreigners. I attended several courses at universities abroad, with many Europeans and people all around the globe. Work at Red Hat and at CERN prepared me for cooperation within international team and communicate every day with colleagues all around the globe - from US, Hungary and Russia to India and China.
